<h2>Our Story</h2>

The Legend of Luigi's Pizza began in 1958 when a staunch Italian gentleman named Luigi Masucci gave Bemidji it's very first taste of authentic Italian pizza pie.

Luigi's pride in his own unique, heirloom family recipes set the stage for the long-standing tradition of making the pizzeria's cuisine fresh on the premises each day.

After establishing the pizza shop in Bemidji, Luigi moved on to open several more "Luigi's" in Northern Minnesota,sharing with other towns his delicious Italian heritage.

It was at this time (1961) the original Bemidji shop was then transferred into the caring hands of the first generation of the Andersens, Rudolph Andersen.

<!-- col-md-6 -->

 Rudy continued with all the family traditions and upgraded the pizzeria from a strictly take-out establishment to one that included a dining area as well.

He continued to make the culinary masterpieces fresh on the premises and was not swayed by the pre-packaged products the pizza industry was quickly manufacturing.

He believed that the quality in a home-made meal was the backbone of the pizzeria's success.

After a short while as sole proprietor, Rudy took on a partner... his oldest son Richard. And in 1963, when Rudy retired, Richard "Dick" Andersen became the new guardian of Luigi's Pizza. </p>

 <h2>We are Luigi's</h2>

<h5 class="center-text mb-50 mb-sm-30 plr-25"></h5>

The Legend of Luigi's Pizza began in 1958 when a staunch Italian gentleman named Luigi Masucci gave Bemidji it's very first taste of authentic Italian pizza pie.

Luigi's pride in his own unique, heirloom family recipes set the stage for the long-standing tradition of making the pizzeria's cuisine fresh on the premises each day.

After establishing the pizza shop in Bemidji, Luigi moved on to open several more "Luigi's" in Northern Minnesota,sharing with other towns his delicious Italian heritage.

It was at this time (1961) the original Bemidji shop was then transferred into the caring hands of the first generation of the Andersens, Rudolph Andersen.

<!-- col-md-6 -->

Rudy continued with all the family traditions and upgraded the pizzeria from a strictly take-out establishment to one that included a dining area as well.

He continued to make the culinary masterpieces fresh on the premises and was not swayed by the pre-packaged products the pizza industry was quickly manufacturing.

He believed that the quality in a home-made meal was the backbone of the pizzeria's success.

After a short while as sole proprietor, Rudy took on a partner... his oldest son Richard. And in 1963, when Rudy retired, Richard "Dick" Andersen became the new guardian of Luigi's Pizza. </p>

<h4>The best recipe for raviolli with pesto</h4>
<h6 class="mt-10 bg-lite-blue dplay-inl-block">

</h6>
 While I’ve made homemade ravioli and it works beautifully in this recipe,

I realize that if you are like me,

there are some nights that you just need a filling warm meal on the table that didn’t take all day and that your family will love!

It’s even better that it didn’t cost an arm and a leg! This recipe uses just four ingredients and is ready in less than 10 minutes!

That’s kinda hard to beat!</p>

I think that I had a definite advantage using garden fresh tomatoes - they have SO much more flavor than the store bought tomatoes!

I also doubled the garlic and laid off of the olive oil - it really doesn't need so much.

I tossed it with garlic and parsley fettuccini and it made for a very healthy, easy and delicious dinner.</p>

/*
  Show context menu for image on right-click

  There is a div containing the navigation that spans the entire image and lives above of it. If
  you right-click, you are right clicking this div and not the image. This prevents users from
  saving the image or using other context menu actions with the image.

  To fix this, when we detect the right mouse button is pressed down, but not yet clicked, we
  set pointer-events to none on the nav div. This is so that the upcoming right-click event on
  the next mouseup will bubble down to the image. Once the right-click/contextmenu event occurs
  we set the pointer events back to auto for the nav div so it can capture hover and left-click
  events as usual.
